

CONSTRUCTION ESTIMATING SERVICES

EFFICIENCY AND EXCELLENCE IN EVERY PROJECT

EXACTING PRECISION

Our top-notch construction estimate & takeoff services in the United States will help you to increase your chances of winning bids and improve your project's success.

INNOVATIVE SOLUTIONS

Crown Estimation provides construction estimating services and material takeoffs. We have been in the building industry for 15 years, during which time we have built a large team of construction estimators.

ABOUT US

THE GREATEST CONSTRUCTION ESTIMATION COMPANY IS US.

[Learn More](#)

Crown Estimation offers material takeoffs and construction estimate services. With over fifteen years of experience in the building sector, we have amassed a sizable staff of construction estimators. This guarantees to our esteemed clientele that we have a proven track record of offering precise material estimates. For this reason, we provide services for every construction trade. Moreover, we finish everything as quickly as feasible.

Our quantity surveyors and construction managers also have a great deal of expertise producing accurate estimates. Consequently, they offer trustworthy quotes for commercial, industrial, and residential projects. The American Estimators Organization and the American Association of Cost Engineers (AACE) have accredited them, and they adhere to their strict rules when preparing.

● BEST ESTIMATORS

CONSTRUCTION ESTIMATOR, MATERIAL TAKEOFFS

Our team of skilled material takeoff specialists and construction estimators works here. Our professionals have worked on several construction projects. We offer construction takeoff services and construction estimates to meet the needs of our clients' projects. These services are accurately provided by our professionals. They are utilised in procurement, design estimation, budget planning, bid quality monitoring, and bidding. Additional clients we work with are vendors, builders, architects, general contractors, subcontractors, lenders, and engineering firms.

[Learn More](#)

CONSTRUCTION BID ESTIMATES FOR GENERAL & SUBCONTRACTORS

We give contractors and subcontractors incredibly precise estimates for construction bids. These are prepared by our estimators by adding labour and material costs relevant to each site. Furthermore, we use the location-based cost databases we have established to achieve this. In this manner, we have already provided assistance with several building projects. These projects include basic HVAC work and roadways near airports.

PRELIMINARY ESTIMATE AND CONSTRUCTION DOCUMENT ESTIMATE FOR DEVELOPERS

To construction developers, we offer commercial estimates for both pre-construction and final construction. Thus, this helps them with client budgeting as well as loan applications. Similarly, our approximations aid in the cost-benefit analysis. Lastly, they assist clients in hiring contractors by providing pricing estimates. We provide estimates for commercial, residential, civil, and industrial projects as part of our construction takeoff services.

CONSTRUCTION ESTIMATOR

Our building cost estimators work hard so that we can offer our services to our loyal consumers. This enables us to offer precise and timely building cost estimates.

MONTHLY TAKEOFF PACKAGES FOR BUSY CONTRACTORS

We may provide you with monthly bundles. You can cut costs by signing up for one of our monthly plans. Up to 60% of the costs incurred by your internal estimator can be saved.

CONSULTATION & BID FILING

We provide guidance to our clients so they may learn about different takeoffs, budget management, and construction cost estimation. We are hence providing you with our knowledge to secure projects and win bids.

TRUSTED BY 2,000+ CLIENTS IN USA

Join over 1,000 satisfied clients across the USA who trust Crown Estimation for precise, reliable construction cost estimates. Let's build success together!

● OUR SERVICES

CONSTRUCTION ESTIMATOR, MATERIAL TAKEOFFS

Our team of skilled material takeoff specialists and construction estimators works here. Our professionals have worked on several construction projects. We offer construction takeoff services and construction estimates to meet the needs of our clients' projects. These services are accurately provided by our professionals. They are utilised in procurement, design estimation, budget planning, bid quality monitoring, and bidding. Additional clients we work with are vendors, builders, architects, general contractors, subcontractors, lenders, and engineering firms.

MEP (MECHANICAL, ELECTRICAL, PLUMBING) ESTIMATING SERVICES

To the interested contractors, we provide MEP estimate services as well as construction takeoff services. Plumbing, electrical, and mechanical services are all part of our MEP offerings. We include everything in our MEP estimates thanks to our own group of knowledgeable estimators. HVAC, sheet metal, ducting, process pipes, pipe insulation, instrumentation & controls, etc. are all included in these estimates. We provide cost estimates for this using specialist tools such as Trimble, FastWRAP, FastDuct, Bluebeam, PlanSwift, and FastPIPIE.

MASONRY TAKEOFFS

We offer our masonry takeoff services to all contractors working on both commercial and residential projects. We include detailed descriptions and quantifications for every aspect of the masonry trade in our takeoffs. Precast lintels, precast sills, marbles, steel, glazed tiles, face bricks, concrete blocks, bricks, and other materials are among them. Furthermore, our skilled group of building estimators guarantees precision and quality for each and every masonry component. Our estimators use AccuBid, Planswift, and Bluebeam, among other technologies, to efficiently complete all of this work.

CONCRETE ESTIMATING SERVICES

We provide contractors with accurate and comprehensive concrete estimation services. We provide concrete takeoffs and estimates for driveways, garages, basements, parking lots, slabs, blocks, pavers, and foundations, among other things. In a same vein, we also provide fire stop, fireproof, sprinkler, spray insulation, waterproof, dampproof, and fire stop takeoffs for thermal moisture protection. Moreover, we offer highly accurate takeoffs and estimates. In addition, we have a bid-winning ratio above 92%.

PAINTING ESTIMATING SERVICES

To prevent wastages, we accurately estimate labour costs, man-hours, and material takeoffs for painting contractors. Coatings, finishes, DTM, glazed, and speciality coatings are included in our estimates' quantities. The walls, partition details, and descriptions in the appropriate line items are all mentioned in the presentation of all of them. We take great pride in providing roofing contractors with metal roofing, flat roof shingles, roof insulation, and roofing estimates. While we provide flooring contractors with flooring estimates and other takeoffs for interior and exterior finishes.

STEEL ESTIMATING/ DETAILING

We provide framers, fabricators, detailing and steel contractors with our precise and reasonably priced steel takeoffs and estimating services. We provide quantities of beams, columns, trusses, castings, railings, gratings, fasteners, joints, anchors, and bolts, among other structural and miscellaneous steel takeoffs. We also handle all decks, trusses, fences, stud framing, gratings, joists, and casting in addition to steel estimating. This aids in accurately acquiring and describing. Consequently, the quality of the process's small details is guaranteed.

DRYWALL TAKEOFFS

We provide accurate millwork estimates or lumber takeoffs to builders, framing contractors, millwork contractors and commercial contractors. Rough and Finish Carpentry, wood trusses, plasterboard framing, cabinetry, millwork, lumber and timber, laminates, countertops, panelling, etc. are some of the items we takeoff. Additionally, outsourcing millwork estimates save you the expensive recruiting and training of professional staff. In a similar vein, we avoid paying for pricey estimating tools. Our estimators boost your chances of securing jobs by performing timely, highly accurate takeoffs for our timber takeoff services.

SITework AND EARTHWORK TAKEOFFS

Sitework takeoffs are provided by our knowledgeable estimators. For contractors and excavators, our takeoff covers site utility estimates, cut and fill dirt takeoffs, and earthwork takeoffs. Cut and fill the 3D image, earthwork volumes, and surface grading are all included in our earthwork takeoff services. Concrete driveways, asphalt, piers, foundations, walls, and landscaping are all included in the site concrete scope of work. Additionally, it includes estimates for trenching and tunnel construction, engraved bricks, concrete, brick, and stone pavers, as well as pavement seal coatings.

LUMBER TAKEOFFS

We provide accurate millwork estimates or lumber takeoffs to builders, framing contractors, millwork contractors and commercial contractors. Rough and Finish Carpentry, wood trusses, plasterboard framing, cabinetry, millwork, lumber and timber, laminates, countertops, panelling, etc. are some of the items we takeoff. Additionally, outsourcing millwork estimates save you the expensive recruiting and training of professional staff. In a similar vein, we avoid paying for pricey estimating tools. Our estimators boost your chances of securing jobs by performing timely, highly accurate takeoffs for our timber takeoff services.

OUR 3 STEP EASY PROCESS

... —

SUBMIT YOUR DRAWINGS

Send us your project drawings. Email, Google Drive or Dropbox are all acceptable methods. Include all the necessary information to help us estimate your price.

RECEIVE A QUICK QUOTE

We can provide you with a detailed and negotiable quote within an hour. A 50% deposit is required to start the project upon acceptance of the quotation.

YOUR ESTIMATE AND COMPLETE PAYMENT

Our construction estimate team is highly skilled and will prepare a detailed material takeoff as well as a labor estimate.

WHAT WE CHARGE?

Our fee schedule is determined on the specifications of the project. It guarantees an accurate assessment. The size, scope, and quantity of sheets we must work on for the project determine how much our services will cost.

Since each project is different, you can email your blueprints to chris@crownestimation.us for a price.

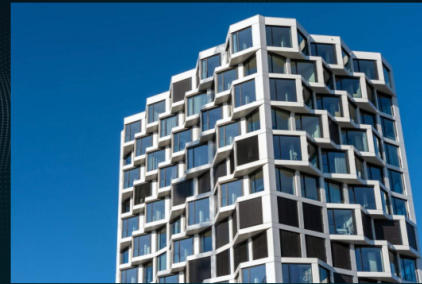

Small projects often go between the \$200-300 price range, mid-sized projects fall within the \$500-800 range, and large projects may exceed \$1000.

COMPLETION TIME:

We can usually complete most takeoffs within two working days of receiving the plans. We can also provide next-day service, depending on the size and workload of the project. We can provide a takeoff for a bid due tomorrow depending on the size and scope of the project.

COST OF UNIT MATERIALS / LABOR

Our pricing comes from the Craftsman National Construction Estimator database suite, which is updated several times per year. Pricing is also based on zip code to ensure that your bid is as accurate as possible.

OUR FAQs

FREQUENTLY ASKED QUESTIONS

— HOW CAN WE BEGIN?

Simply send over your project drawings electronically. They can be sent through Google Drive, email, Dropbox, or other electronic methods. We will respond with an estimate tailor-designed for your needs. Please use email chris@crownestimation.us or click the button below.

+ WHAT PAYMENT METHODS DO YOU ACCEPT ?

+ DO YOU SHARE ANY PREVIOUS WORK OR SAMPLES, SO WE KNOW WHAT TO EXPECT?
