About Us

Unity Estimating is Registered in Georgia

At Unity Estimating, a leading construction estimating company in the USA, we believe that high-performance design is good design. Our range of in-house expertise enables us to offer top-tier construction estimating services and construction takeoff services that are holistic, integrative, and data-driven. Starting from the earliest stages of a project, we use advanced software tools to understand how our estimating decisions impact energy use, indoor environment quality, and carbon emissions. Throughout the design process, we apply iterative modeling to optimize both passive strategies and active systems, resulting in higher-performing buildings that meet project schedules and budgets.

Fields of Expertise

Our Construction Estimating Services

Cost Estimation

We provide building cost estimates such as conceptual cost estimates, bid estimates, project cost management, material takeoffs, material field audits, software consulting, and expert witness representation.

Material Takeoff

Our company has a proficient staff of construction cost estimators to work on your residential, commercial, or civil construction project. We specialize in preparing material takeoffs and material lists for every construction trade.

MEP

Our team specializes in a multitude of software being used to do MEP estimates including traditional software. Our MEP estimates can be easily updated and manipulated by customers to meet their specific requirements.

Construction Designing

Our Construction Designing approach with a collaborative teaming environment that fulfills multiple objectives, such as aesthetic and functional quality, budget and schedule management. With a focus on quality, efficient use of funding, timely decision-making and risk mitigation.

Architecture Designing

Our Company provides professional architectural, engineering, and interior design solutions to clients seeking responsive and reliable planning and design services, as well as specialized expertise. We understand that great design is only one component of a project's success and strive to deliver high-quality, value-based, and timely service for projects both large and small.

Architectural Walkthrough

Our Company providing a full range of architectural services with Architectural walkthrough of 3D Interior and Exterior rendering from initial concept development through detailed design documentation, Infinity Estimation offers expertise in a wide variety of building types, as well as extensive experience with both new construction and renovation.

Residential Construction Estimating

Unity Estimating is a reliable platform for residential construction estimating and has built a reputation over many periods for the best residential estimating services. Our clientele is extended beyond geographical borders.

Commercial Estimating Services

Are you tired of grappling with the constant burden of handling various intricacies of commercial structures? We offer comprehensive estimating services for contractors and sub-contractors.

Industrial Estimating Services

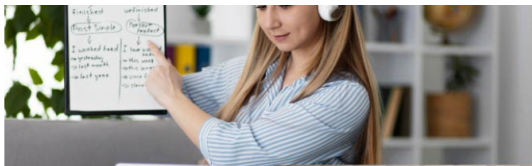

Are you on a hunt for professional industrial estimating services that help you save both time and money, without compromising on quality? You are on the right page.

Frustrated by inaccurate bids and lost profits?

Why Choose Unity Estimating?

With Unity Estimating, enjoy precise bids, on-time projects, and growing profits—our expert team turns your estimating headaches into a competitive edge.

— Unmatched Accuracy

At Unity Estimating, we focus on providing accurate and reliable construction cost estimates. With our careful approach and thorough attention to detail, we help minimize the risk of unforeseen costs and delays. You can count on us for trustworthy estimates that set the stage for smooth project planning and successful execution.

Features

Accurate Construction Estimates That Power Your Bids

Don't let the cost of estimating slow you down. With our affordable solutions and industry know-how, you can bid with confidence, win more contracts, and grow your business. Our skilled team is here to help streamline your bidding process, land more projects, and boost your profits.

What Makes Us Your Partner in Winning?

We don't only estimate; we also give consulting services to help you secure and close deals successfully. Our professional team can work with you to develop effective strategies, provide advice throughout negotiations, and even join in conference calls to assist.

Time-Saving Solutions For Busy Contractors

Don't let restricted resources or time prevent you from attaining achievement. Many contractors lose significant income each month because they lack basic building estimation skills. Say goodbye to spending late hours and weekends at the kitchen table calculating project estimates.

Win Bids With Our Takeoff Package

With our trusted construction takeoff services, you can confidently bid on more projects, increasing your chances of success. Consider the time and money you'll save by entrusting your estimating requirements to our skilled team.

How Do Our Construction Estimating Services Guarantee Your Next Win?

With 450 successful projects under our belt, 170 thrilled clients, and over 150 trusted partners, we deliver precise construction estimating that turns plans into profits—ready to see how?

What Our **Clients** Says About Us

FRANK

NANCY JONES

CM ENGINEERING PLEASANTON, CA

They provided incredibly accurate and lightning fast estimating services for our urgent need. Although our plans were not a precise set having some conflict errors and plowed through the conflicts and provided responsible clarified results that were essential in a short time frame. In the end we were able to rely on the results for a successful implementation. Looking forward to many similar work services in the future.
